

You're invited to an event during Pharmacy Benefits Week to help  
**maximize your pharmacy benefits**

## #1 challenge

Older adults most frequently cited medication cost as a problem they faced trying to access health care.<sup>1</sup>

## 1 in 5

Not understanding their benefits is an obstacle 20% of older adults report they face.<sup>1</sup>

## What will you learn?

Medicare counselors at the event will answer your questions and provide simple steps to help maximize your pharmacy benefits and save money.

## Who should attend?

Older adults and people with disabilities who have Medicare prescription drug coverage and caregivers who want to help their loved ones gain a better understanding of their coverage.

The Walgreens logo is written in its signature red, cursive script font.

The Answers on Aging®|Pharmacy Benefits program is a public education campaign developed by the National Association of Area Agencies on Aging (n4a) and Walgreens. The campaign is designed to increase awareness of the fact that the majority of Medicare beneficiaries do not take full advantage of their Medicare prescription drug benefits, which can have a negative effect on their physical and financial health. Information that Medicare consumers gain as a part of this campaign can be used to help them maximize their benefits at the pharmacy of their choice.
